

# What is the West-Central MN Climate Network?

- An informal citizen network with a broad focus on climate resilience and its many connected topics.
- Resource and knowledge sharing in a positive, refreshing atmosphere.

# Who is the West-Central MN Climate Network?

- An inter-generational community of friends and neighbors from all backgrounds
- We meet online and in person on the first Saturday of every month at 10:30AM

# What does the West-Central MN Climate Network do?

Past and current projects we're involved in include:

- The Stevens County Community Garden
- Field trips to Scandia Woods Environmental Learning Lab, Glacial Lakes State Park, Neimackl Lake Park
- Container Farm (can we add a couple details?)
- Seed harvesting at the Morris Wetlands headquarters
